BELOW BASE RATE

The interest rate is variable and tracks at the fixed 'margin' below the Bank of England (BoE) base rate. Interest rates above are based on the BoE base rate. Today's BoE base rate is 4.25% and you can monitor the latest base rate on its website at [bankofengland.co.uk](https://www.bankofengland.co.uk).

On balances of £5,000 and over, you'll earn interest on the whole balance.

If your balance is under £5,000 at any time you will not earn interest.

Interest is calculated daily and paid on the anniversary of the date you met the £5,000 minimum balance, and then annually after this – or on closure if that's sooner.

If the anniversary falls on a weekend or a bank holiday your interest will be credited on the next working day.

AER means Annual Equivalent Rate, which illustrates what the interest would be if it was compounded annually. Gross is the interest rate without the deduction of income tax. Interest is paid gross to your account.

CAN HTB CHANGE THE INTEREST RATE?

The interest rate is variable, so it can change at any time.

There are two types of variable rates, 'managed' and 'tracker'. This is a tracker variable rate, which means it moves down and up in line with the BoE base rate.

If the base rate changes, the new interest rate on your account will apply without notice, no more than 5 business days following a change in the base rate.

On balances of £5,000 and over, you'll earn interest on the whole balance.

If your balance is under £5,000 at any time you will not earn interest.

This interest rate on this account will never drop below 0.00%.

We may vary the margin:

- If we increase the margin (decrease your rate) you will be given at least 14 days' notice before the change comes into effect.
- If we reduce the margin (increase your rate), you will be given less notice.
